## Product Description

### Membrane Press High Gloss PVC Film Roll For Indoor Kitchen Cabinet Decoration

#### Detail Description

- 1. Material:** Our pvc foil is primarily made from Polyvinyl Chloride (PVC), a synthetic plastic material known for its durability, flexibility, and ease of processing.
- 2. Appearance:** We offer a variety of colors, patterns, and textures for our pvc foil. It can replicate the appearance of natural materials like metal, wood, stone, or cloth, offering a more affordable option to real materials without sacrificing style.
- 3. Versatility:** Our foil can be applied to a variety of surfaces, including doors, cabinets, furniture, walls, and more. It adheres well to different substrates and can be while used in different area in interior.
- 4. Durability:** Realsun Deco pvc foil is know for its durability and resistance to wear and tear. It can withstand daily use and it often chosen for high-traffic areas.
- 5. Maintenance:** Once installed, our pvc foil is generally low-maintenance. It is easy to clean and typically requires only routine wiping with a damp cloth to maintain its appearance.
- 6. Cost-effective:** One of the primary advantages of pvc decorative foil is its cost-effectiveness compared to natural materials. It allows for the creation of high-end aesthetics without the associated expenses.
- 7. Customization:** Manufacturers offer a wide variety of designs and finishes, allowing for customization to suit specific design preferences and project requirements.
- 8. Application:** Decorative pvc foil is commonly used in residential and commercial settings for applications such as kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and more.
