Product Description

Waterproof Anti Flame PVC Plastic Wrap Film for Interior Furniture Covering

Product Description:

Our PVC Foil is made of Polyvinyl Chloride (PVC), a synthetic plastic material. It's renowned for its durability, flexibility and is easy to process. It is also available in a variety of colors, patterns, and textures that can mimic the look of natural materials such as wood, stone, fabric, or metal, making it a cost-effective alternative.

PVC Foil is versatile and can be used on a variety of surfaces, ranging from doors, cabinets, furniture, walls, and more. It adheres well to many different substrates and is often used in interior areas. Our PVC Foil is resilient and highly durable, making it ideal in high-traffic locations.

Not only is PVC Foil cost-effective, it's also easy to maintain. You simply need to wipe it down once a week with a moist cloth.

Manufacturers also have a range of styles and finishes for customers to choose from, to better meet their project specifications and design preferences.

Finally, decorative PVC Foils are commonly used in both residential and commercial settings. It can be used for kitchen and bathroom cabinets, doors, wall paneling, furniture, retail display and more.
