Product Description

Product Description:

.

Applications:

Membrane Press

Our Membrane Press technology allows for easy covering of various surfaces, including MDF, particle board, wooden board, and fiberboard. This makes it perfect for use on doors, kitchen cabinets, wardrobes, and other furniture pieces.

Wrapping Profiles

With our Wrapping Profiles, we are able to cover all types of profiles, including wood, aluminum, and PVC. This is ideal for door frames, window sills, base channels, PVC ceilings, and more.

Cold Lamination

We offer Cold Lamination services for flat panels, such as wood, steel, aluminum, and PVC panels. This is primarily used for doors and furniture.

Hot Lamination

Hot Lamination allows for the covering of PVC, steel, and aluminum panels, making them suitable for use on doors, skirting, and other surfaces.

Self Adhesive

Our Self Adhesive option is available for all of our PVC films. It uses PVC decorative film as a base material and is applied with an environmentally friendly acrylic pressure-sensitive adhesive. This makes it easy and efficient to apply on any surface, providing a perfect and durable finish.

Customize your furniture with our high-quality PVC sheet for furniture. Our PVC plastic film, also known as PVC membrane foil, offers customizable options for your furniture needs. With a minimum order quantity of 3000m/model, we provide a negotiable price and offer packaging in rolls. Our delivery time is 15-20 days and we accept T/T 30% down payment with a 70% balance before shipment. We have a monthly supply ability of 500000m and offer 1-5 color printing. Our PVC membrane foil features waterproof, anti-flame, anti-scratch, and antibacterial properties. The length of our rolls ranges from 100m to 400m. Choose from our wide range of PVC materials and a MOQ of 2000-3000m/model to create the perfect customized furniture pieces for your space.

Packing and Shipping:

Product Name: PVC Membrane Foil

Packaging and Shipping

Each roll of PVC membrane foil is carefully packaged to ensure safe delivery to our customers. The packaging process includes the following steps:

The foil is first wrapped in a foam sheet to prevent scratches and damage during transportation.

It is then wrapped with kraft paper and plastic sheet to provide additional protection.

The roll is sealed with tape and labeled with the product name and specifications.

We offer various packaging options to meet the specific needs of our customers. Customized packaging with company logo and information is also available upon request.

For shipping, we work with reliable logistics partners to ensure timely and efficient delivery of our products to our customers worldwide.

We offer both sea and air freight options, depending on the urgency and destination of the order.

Our team carefully monitors each shipment to ensure that it arrives at its destination in perfect condition. In the unlikely event of any damage during shipping, we have a dedicated customer service team ready to assist with any issues and provide a satisfactory solution.

We strive to provide the best packaging and shipping services to ensure that our customers receive their PVC membrane foil in perfect condition and on time.
